EXPERIENCE

AI ENGINEER | NOXBRIDGE ELITE EXPAT LLC | DUBAI

November 2025 – current

- Built and maintained Next.js/React applications and Shopify storefronts, integrating custom features, APIs, and theme customizations for B2B and B2C clients.

FRONT END DEVELOPER | NEW LINE | PALESTINE

July 2025 – October 2025

- Developed responsive, data-informed web pages, aligning UI decisions with analytics insights to improve performance and usability.
- Refactored the codebase for modularity and scalability, reducing load times and maintenance costs.

DATA ANALYST | REMOTELY

October 2024 – May 2025

- Built Excel and Power BI dashboards and pivot tables to report KPIs and performance metrics to stakeholders.
- Delivered actionable, data-driven insights to improve UI/UX and prioritize new product features.

FRONT END TRAINEE | GAZA SKY GEEKS | PALESTINE

August 2022 – February 2023

- Completed an intensive front-end development training program focused on React, JavaScript, and Git.
- Built dynamic front-end interfaces and integrated them with REST APIs in real-world agile, team-based projects.
